The programs of the Evening and Saturday School are designed to meet the requirements of various types of students. COLLEGE CREDIT COURSES are the academic equivalent of the daytime courses in the Bachelor of Fine Arts degree program. They are open to degree candidates, transfer students, professionals and qualified amateurs. Amateurs may also register in these classes as auditors. SPECIAL NON-CREDIT COURSES are essentially adult education courses for the beginner and non-professional amateur. Each of these is especially designed for the person of little or no experience. They include both group and individual instruction and will prepare the novice to enroll in the regular college courses if he wishes to continue his studies.

Instructors of the C.S.F.A. Evening and Saturday School are, as all of its teachers, recruited from the vanguard of creative artists. This policy assures students the opportunity to work with men and women who are masters in their fields, and whose foremost concern is with visual expression. Each faculty member is given complete freedom to use his own methods of instruction and to express his own concepts to his students. This freedom which allows the student to experience a variety of approaches to art, together with the professional competency of the teachers encourages the student to develop his own creative abilities and attitudes, and provides a learning situation of unequalled excellence for both beginners and the more advanced.
